

Helmut Stern's High School Graduation Photo

This is a poster with portraits of high school graduates of the Czechoslovak State Trade Academy from 1922-23. By the names we can determine that at least two thirds of the students were of Jewish origin. There is also the portrait of my grandfather Helmut Stern. The only person still alive is Mr. Marcel Kucera, who is about 90, so he is the only living class-mate of my grandfather from the high school.
