

Our Daughters

I met my wife Erna Adoni, who was born on December 25th, 1924 and raised in Kadiköy, in 1947 at a party given by a mutual friend, and we liked each other. Because she is a graduate of St. Benoit like me, she speaks it as well as I do. When we decided to get married, Erna was 22, and I was 27. We married at the Zülfaris Synagogue on August 10th, 1947 [On the European side, in Karaköy, where the Jewish museum is located now]. Our oldest daughter Sara who is in the center of the photograph was born in 1948, sitting on the left is Rosita who was born in 1950, on the right our youngest Stella born in 1954. After completing their education our oldest daughter Sara dated Erol Penso for 8 years and married in Neve Shalom on March 1970. They always lived on the European side, in a modern house. They raised two sons named Ceki (1972) and Niso(1974). Our daughter Sara always wished to study in college, while she was raising her family, (1997) she entered the university placement exam which is very hard and got accepted to the French Language and Literature faculty in Istanbul Üniversitesi, graduated in 4 years. She has the right to translate and translates books and scientific articles. Their son Ceki has been married to a nice girl for two years, Niso on the other hand is engaged, G-d willing we will marry him in December. Currently we reside in the same apartment. Our middle daughter Rosita married Jojo Balibarisseev (September 30th 1973), a chemical engineer who graduated from the Bosphorus University, in Neve Shalom after finishing highschool.... My son-in-law worked for long years with Charles Danon who owns the Istanbul branch of Guido Modiano which is centered in Italy. In 1980, Mr. Guido offered my son-in-law a job in Italy since he was very happy with his work. In this way the family moved to Milan. Their son Semi works in a very important advertising company in Italy. Their daughter Rifka studied child psychology in a university in London. During that time she married Remi Menenson (Ashkenazi Jew, French origin) in 2004. They currently reside in London. Our youngest daughter Stella graduated from the Bosphorus University with a degree in chemical engineering with outstanding achievement. With the help of the Israeli government she did her masters and doctorate in "The Weismann Institute of Science" in Rehovot for 8 years. After graduating she sent all her diplomas to New York and applied for a job. Of course she was accepted, she has been working as an academic for 20 years while continuing her research. She is now a United States citizen and is single. She comes every summer to Istanbul for 3 weeks to see us.
