

Piotr Borowicz's Wedding

This is a picture taken during the wedding ceremony of my son, Piotr. It was in the early 1980s. The priest is my schoolmate Jan Gustkowicz. My son obtained a PhD in chemistry and went to work in Tarchomin. He runs the Biotechnology and Antibiotics Institute. His wife, Halina, is a psychoanalyst. They have two sons, one has already got a degree, the other passed the high school finals this year. Since they were born they have spent all the weekends with us.
