

Anna Danon With Her Students

These are Vietnamese students from the courses I used to teach. I was a lecturer in children's diseases at the Institute of Nurses in Sofia. I am third from left. On my right is Panikian - one extraordinary woman. She was an inspector at the Institute - a very nice, clever and positive person. She organized those courses and I read the lectures. We are in one of the institute's rooms. The photo was taken in 1978.
