

Ernst Olikar

This is my brother Ernst.

The picture was taken in Leningrad in 1957, he is a graduate of the Leningrad Institute of Cinematographic Engineers.

My brother Ernst was born in 1935. He lived with our mother while he was a schoolboy.

In 1952 he moved to Leningrad, where I lived, and entered the Cinematographic Engineers Institute.

After graduation he worked at the Leningrad 'Sevkabel' plant as an engineer, and at the Scientific-Research Institute of Radio Equipment, where he still works.
