

This is the faulty ID of my husband Molho Solon. It is the one he had when he was in hiding in Glossa, Skopelou. It was issued in Glossa on 22nd March 1944. His name is Mihailidis Spiros keeping the same initials as Molho Solomon. This was done on purpose because very often the clothes were embroidered with the initials of the person. All the data has been changed and I have the impression, knowing his handwriting all-too-well that he probably prepared this document himself.
