

University Diploma Of Pavel Sendrei's Father, Aleksandar Sendrei

This is the university diploma of my father, Aleksandar Sendrei. It was issued in 1909 in Budapest. He studied chemistry at the University of Budapest and became a pharmacist. Father spent his days working in his drugstore. He was a big fan of football. He was a member of the ESKA ZILINA football club and one of its big donors. This football club was once one of the leading football clubs in Slovakia.
