Centropa at Barrack Proposal for Museum Exhibit

Museum

Jack M. Barrack Hebrew Academy will host a museum exhibit created through a partnership between Centropa and our 9th grade students.

The core of the exhibit will be structured around a series of Centropa panels focused on Jewish life in the area of Czechoslovakia. Our students will create a museum quality setting for these panels by researching and designing additional material to contextualize the Czech exhibit.

The exhibit will open with a community-wide evening event featuring public speakers, the dedication to **Igor Laufer**, and the screening of select student-made films.

Student preparation

In the course of a study unit on the Shoah, students will research their families' stories and collect pictures of their lives before immigration to America. Students will scan family photos and documents to launch the *Barrack Family Archives*.
