

The jewish alumnus of our school

We searched in the books of the archive for jewish girls (just for girls because our school was a girl's school at that time) who had been at our school at the time of the second world war. It was terrifying, because in the annual of the 1937/1938 school year nearly the half of the pupils were jewish and in the 1938/1939 school year there were no more. We wrote all names of the jewish girl's out and reseachered their names with the help of the DöW. We found the family history of few of them and here they are:

KZ Riga Kaiserwald: This concentration camp wasn't an extermination camp but rather a labor camp. It was placed in Lettland and leader was Eduard Roschmann. He flew after the second world war to Argentina where he created a new existence with the help of the organisation Caritas and his new name was Federico Wegener.

KZ Maly Trostinec: This concentration camp was an extermination camp. There have been 40.000-60.000 people killed.

KZ Modliborzyce: It was a polish Ghetto where jewish people were detained (either they were killed in this Ghetto or they were deported to an extermination camp

This girls didn't appear in school after 1938, but we don't know what happened to them. We can just guess...
